

## The Vacuole pool & snack bar

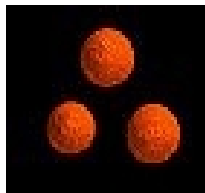

Enjoy a relaxing time at our vacuole pool & snack bar. This pool is a great storage of water. There is also food stored here for the yummy snack bar.

There are a number of these combos located throughout our hotel. They also have 100's of restrooms!

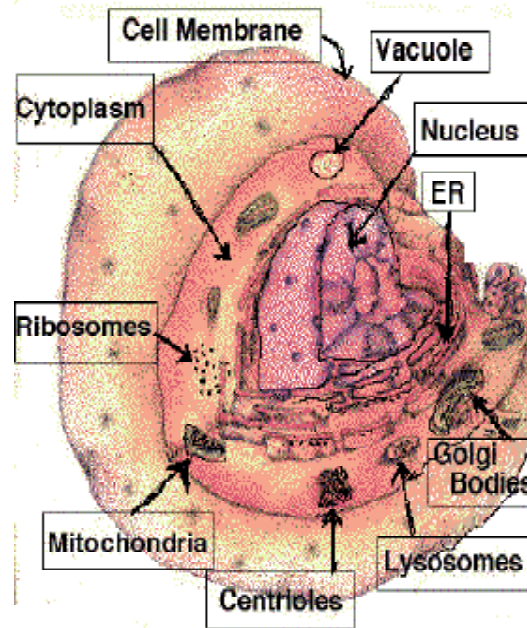

## Lysosome Housekeeping

Our lysosome housekeeping staff is the best around! They keep our cell hotel free of unwanted dirt and grime. They use special digestive chemicals to destroy anything that does not belong in our cell!

## A Map of The Hotel

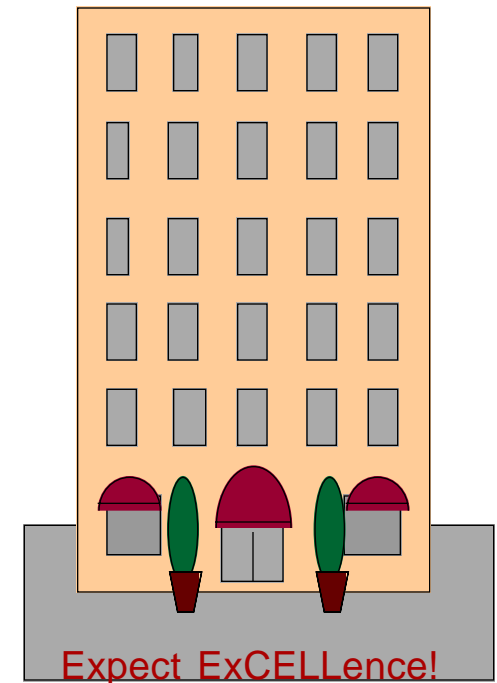

### Directions:

Take The circulatory route 1 to artery drive.

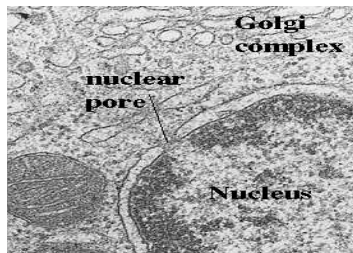

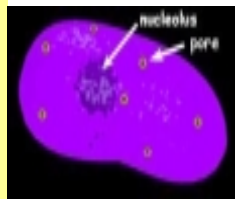

At artery drive take the first left onto blood cell avenue. At the first intersection turn right on eukaryotic parkway. Look for our hotel on the left side of this parkway. Our Hotel is the largest cell with the red awnings and our logo on the sidewalk: Expect ExCELLence!

# Animal Cell Hotel

1-800- THE-CELL

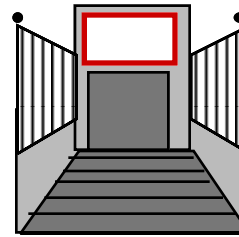

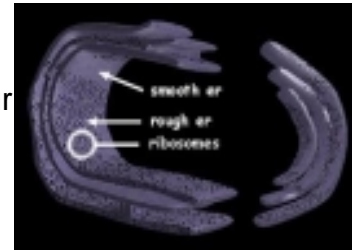

Meet Mr. Joe Nucleus. He is the general manager of our cell hotel. He makes certain that everything at our hotel is exCELLent! His office is centrally located so that he is always aware of what is happening in every area of our hotel. It is difficult to get through the specialized security around his office The Nuclear Membrane Patrol. It is their job to make certain that no unwanted visitors disturb Mr. Nucleus while he is hard at work. You may only enter his office at one of the special nuclear pore doors.

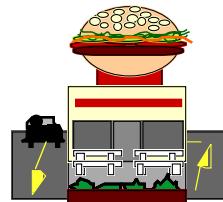

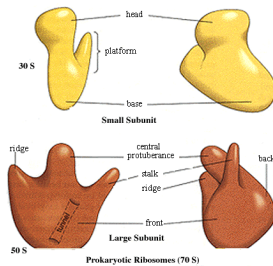

## Endoplasmic Reticulum Transway

These special transportation systems in our hotel will take you from your room to any other destination in our hotel. They are unique carriers that you ride in. While on your ride you might want to grab a protein meal or just a shake from our unique ribochefs in the ribosome restaurants.

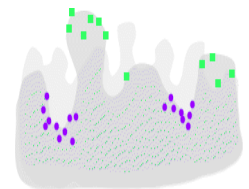

## Ribosome Restaurants

Please enjoy our ribosome restaurants located throughout the cytoplasmic areas of our hotel as well as special ones found on the rough endoplasmic reticulum transway of our hotel. These restaurants specialize in making any protein meal you desire. The special ones on the ER transway actually have tableside ribochefs preparing protein meals right before your very eyes!

## Cell Membrane Front Desk

Upon arrival you will be greeted by a cellular staff member at our front desk. You will check into the hotel here. If you do not have a reservation they will not let you into our cell. They control who comes in & goes out of our hotel. Please keep your key card with you at all times for access to your room and any other unrestricted areas.

## Mitochondria Machines

Come & see where the energy to run this incredible hotel is generated. These special machines are located throughout the cell hotel. Take the tour to see how special sugar bars are turned into usable energy. These are definitely the powerhouses of our hotel!
